Reevaluation Date Annually			No. Pages: 3
Amends:		Rescinds:	
Approved By: Marlon C. Lynch, Associate Vice President & Chief of Police		Signature: Official Signed document on file in Accreditation Office	

I. PURPOSE

The purpose of this order is to provide procedures for dealing with seized firearms.

II. PROCEDURES FOR FIREARMS USED IN CRIMES/SEIZED FIREARMS

These procedures are to be used for firearms used in crimes, firearms unlawfully possessed, and firearms which have been taken into evidence or property (having been turned in or seized).

- A. The arresting officer or officer seizing a firearm will request for the UCPD Emergency Communications Center (ECC) to run the firearm's serial number through LEADS.
- B. The officer will contact the **City Gun Desk** (312) 745-5200 and run the gun to see if it's stolen, wanted, lost, etc. The Gun desk requires a report number, which will be the UCPD report number. There is no need to obtain a CPD RD #. The officer will annotate in their narrative the results of the gun check.
- C. If the gun comes back stolen, wanted, etc. The officer will notify the Captain or Shift Supervisor, and then notify the investigating jurisdiction that we have the firearm and/or a person in custody. UCPD shall continue to process the arrestee for charges related to our case (i.e. UUW, Aggravated. Battery) and the investigating jurisdiction is responsible for contacting the lockup and placing "hold papers" on the subject, if they wish.
- D. The officer will inventory and secure the firearm in the Evidence/Property area, according to GO 802.5.D.

- E. The officer will document the results of the LEADS and Gun Desk queries in the associated original incident report.
- F. The investigations supervisor (case review officer) will assign a detective to complete an **ATF Trace Request (Bureau of Alcohol, Tobacco, Firearms and Explosives)** (<http://www.atf.gov/publications/factsheets/factsheet-ettrace.html>) on the firearm unless the gun was wanted by another jurisdiction. The results of the federal gun trace would be forwarded to the investigations supervisor for review and determination if the results required further investigation or can be filed with the original report file.
- G. The detective will document the results of the ATF Trace Request query with the original incident report number.
